I, Understanding your W600 watch

1.1 Care for your W600.

To keep your W600 watch in good operating condition please read this

W600 WatchPhone

manual carefully before using it.

The W600 watch is a combination of intricate design, delicate craftsmanship, comfortable to wear, a convenient handwriting recognition function and touch keypad, colorful touch screen, ring tones, file management, camera and video function, voice record function, MP3/MP4 players, supports MMS, WAP.

1.2 Safety notice

★ If your phone is lost or stolen, please notify your network provider to initiate the cancellation of the sim card. You may be asked for the IMEI number. This should be written down and stored in a safe place. To find your IMEI number, please check the battery compartment or the box which the W600 phone was issued in.

★ To avoid misuse of your phone, please enable the safety measures, Such as:
Setting SIM card and PIN No.
Setting phone PIN

1.3 Safety alert and notice

★ Please do not use your W600 watch when you are driving, in extreme circumstances, use hand free accessories to accept calls. Please remember, it is illegal in some countries to make/receive calls when driving.

★ All mobile devices may cause interference to radio devices, using W600 mobile on plane is illegal and dangerous, please make sure keep your phone power off during flight.

★ Power OFF within dangerous areas such as:
At Petrol and Gas stations, oil digging plants, chemical plant or explosion

W600 WatchPhone

areas, you must abide by relevant law or rules, and power off your phone.

★ **Abide by special regulations**

Abide by special regulations, and keep your phone powered off at places which may cause interference or danger to other equipment (such as in hospitals)

★ **Interference**

Any phone may have talk quality interference by other radio waves.

★ **Servicing Your Phone.**

The mobile phone watch must be installed and maintained by professionals; unauthorized installing and repairing may cause danger, and will lead to invalidation of the warranty.

★ **Fittings and battery**

Only use the fittings and battery approved by W600.

★ **Use properly**

★ **Emergency call**

Make sure your phone is powered on and in service, input emergency call NO. (such as 999 and others), dial to call, tell your position and make a brief of status, and please do not terminate conversation without permission.

★ **Note:** As any other mobiles, for the reason of network or signal transfer status may not support all the functions of this mobile. Certain networks may even not support 112 emergency calls. So you can not depend on your W600 mobile totally. When there is important communication, (such as medical first aid).

★ **Please contact local network supplier for information and check.**

1.4 Battery Charging.

(1) You need to completely charge the battery before use. For a new product, it's better that charge the battery for up to 10 hours. This is so the battery can achieve full performance.

W600 WatchPhone

(2) When you charge the battery, the W600 watch will feel warm, but it is installed temperature protection will control the change of temperature and the charge, usually you need charge for 4 hours.

(3) When the battery meter is low, the screen will show "Battery low". This is to remind for charge the W600 watch.

Notice: The battery's functions (such as standby time and talk time) are different when working due to operation and network system.

1.5 Usage notice

Your mobile watch is of delicate craftsmanship, it should be protected carefully. The following suggestions will help your machine serve you well for many years.

(1) Don't touch screen with sharp objects and keep screen clean. Never use the product when it is damaged. It is normal if the screen startup slowly under low temperature.

(2) Keep your mobile watch other parts and fittings beyond the reach of children and animals.

(3) Please note: you must avoid water splashes/drops onto the mobile watch or on its body, if this happens, it will not work, and this is not covered in the standard warranty policy.

Keep the product dry, keep away from rain, moisture and liquid which may contain corrosive matters, if the mobile is wet, please take out battery immediately and only reinstall battery after it has complete dried.

(4) Do not use or store the product in dusty places in order to avoid its parts be damaged.

(5) Do not put the product in places of heat. High temperature will shorten the life of electronic circuit board.

(6) Do not put the product at cold places, otherwise the mobile will have humidity damage and ruin the electronic circuit board.

W600 WatchPhone

(7) Do not throw, beat or vibrate your mobile which will damage the electronic circuit board and structure.

(8) Do not use corrosive chemical product, cleanser or scour to clean the watch mobile. Please use a soft towel to clean.

(9) If your product or accessories do not work, please send to professional service station, Professionals there will provide maintain service for you.

II、 Introduction to your watch mobile

1>picture induction
